Subject: IATDMCT Bylaws Changes - Please review and submit your approval

Date: Tue, 19 Sep 2023 10:10:30 -0400 (EDT)

From: International Association of Therapeutic Drug Monitoring & Clinical Toxicology <info@iatdmct.org>

Reply-To: info@iatdmct.org

The Articles of Incorporation may be amended at any annual or special meeting of members upon a two-thirds vote of those active members entitled to vote at a meeting of the members.

BYLAWS CHANGES

The current IATDMCT Bylaws were last revised in 2008. A Bylaws Review Committee has proposed changes to the Bylaws to update them to be reflective of the current practice of the association.

The Executive Committee and Council of IATDMCT have reviewed the proposed changes and have agreed to the revisions. The revisions will be presented to the Annual General Meeting on Tuesday September 26 in Oslo, Norway.

At this time we are asking members to review the changes and submit your approval using the poll buttons below.

Links to the documents are:

- [The current Bylaws \(2008 version\)](#)
- [A revised draft Bylaws \(2023 version\)](#)
- [A track-change document highlighting the revised sections](#)

Deadline for your response: 10pm CEST Monday September 25, 2023

IATDMCT Member Vote: Approve the proposed Bylaw changes

Yes I approve the changes

No I do not approve the changes

Member Vote

- Yes, I approve the changes.
- No, I do not approve the changes.

We can use this fund to support regional events in developing countries, as well as travel support from developing countries.

My 10 years of service to IATDMCT: Yusuke Tanigawara

- 2013-2017 Secretary (2 terms)
- 2017 Chair of the Kyoto Congress 2017
- 2017-2019 President Elect
- 2019-2021 President :
 - First President from a non-Western country
 - Activities were mostly limited due to the COVID-19 pandemic.
 - Banff Congress 2020 was cancelled.
 - Unable to attend the Rome Congress 2021 in person.
- 2021-2023 Past President

Just before and during the COVID-19

Dear members,

I hope that you are continuing to stay safe and healthy during this difficult time. We have all had extremely unusual experiences and sudden changes in our daily life and working/studying circumstances due to the COVID-19 pandemic. At the same time, I sincerely thank all medical and laboratory professionals for their devoted efforts to fight the virus and care patients.

Even in this challenging situation, I am pleased to see our IATDMCT colleagues demonstrate their expertise to contribute to medical service and public health.

...

While it will be some time until the world returns to a more normal status, IATDMCT continues to support members. I look forward to near future when we can meet together discussing science and exchanging activities.

“There is always light behind the clouds.” (Louisa May Alcott)

Yusuke Tanigawara
IATDMCT President

My 10 years of service to IATDMCT: Yusuke Tanigawara

- 2013-2017 Secretary (2 terms)
- 2017 Chair of the Kyoto Congress 2017
- 2017-2019 President Elect
- 2019-2021 President
- **2021-2023 Past President**
 - Final mission is the Bylaws update, based on the 10 years of experience as an Executive member.

I ❤️ IATDMCT because ...

- A family-like society,
- Comfortable for every member, even for first-timers,
- Reasonable size,
- A variety of science in pharmacology and toxicology,
- The majority are young scientists, which means a bright future for the Association,
- Diverse membership across the globe,
- However, there is a remaining issue.
- **Diversity, Equity, Inclusion (DE&I):** Executives, SC Chairs, Congress speakers are European-centric and male-dominated.

**The past 10 years have been an outstanding
experience in my life.**

**Thank you for your friendship and
cooperation!**

**I sincerely wish the IATDMCT continued
growth and success.**

India TDM Education 8 Sessions!

Organised by: Dr. Debbie Marriott, Dr. Smita Pattanaik,
Dr. Sumith K Mathew and Dr. Vikram Gota

- The sessions were held in a second-monthly frequency, with on an average more than 125 participants.
- Its success has prompted an examination of ways of expanding within the Asia-Pacific region in the future.
- The India program, was hosted by 7 institutions.

Fostering TDM through Education: Reflections from India

By Debbie Marriott & Sumith K Mathew
On behalf of the Anti-infective Drugs
Committee

“How we could close
educational gaps ...”

Fostering TDM through Education:

Reflections from India

- *In the beginning...* “Our Society was very Europe-centric with few speakers from outside Europe and to a lesser extent the USA. This is in part for historic reasons, but also in part due to lack of recognition of or insight into the work being undertaken in different geographic regions.” *DM*
- *Where are we now...* “The active participation of delegates attending the webinar series and their sheer numbers speak volumes about of their genuine interest in TDM. We hope that this program will continue to inspire participants in India and across the globe to initiate TDM in their own institutions and integrate it with existing regional health policies.” *SKM*

TDM in Biologics: Towards Personalized Medicine

- Dec 9th, 2022
- 200 live participants, 10 online
- Mostly European and online from Japan and USA

Final Remarks!

- As DOEs we hope to inspire people to participate in TDM, with gender and geography balance to provide role models, especially at the Annual Scientific meetings
- However, the disparity has been apparent at the last 3 Annual Scientific meetings despite our requests for review following each of these.
- This year in Oslo the gender balance for invited speakers remains 2:1 in favour of males, besides the countries with the highest IATDMCT membership are poorly represented in the programme.

DOEs Request!

In order the Society to advance we expect that the new Executive put into place measures to ensure that this balance is achieved into the future and could find ways to ensure that these important contributions from Scientific Committees are prioritized.

What comes next?

Meetings with other communities:
ISAP/EPASG ECCMID, TIAFT and EACPT
